SIBU DESIGN INFORMATION

D

SIBU DESIGN – Die stark klebende Designplatte für die exklusive Oberflächengestaltung im Innenbereich!

SIBU DESIGN ist führend in der Herstellung von hochwertigen Kunststoff-Designplatten. Das SIBU Programm umfasst eine Vielzahl an trendigen Farb- und Designvarianten. SIBU DESIGN Produkte sind speziell für den Innenbereich wie

- interior
- shop concept
- fashion
- display
- exhibition
- manufacturing

entwickelt. Sie sind leicht zu verarbeiten und in beinahe unbegrenzter Weise einsetzbar. Nutzen Sie die umfangreichen Möglichkeiten und fordern Sie unsere Verkaufsunterlagen an, in welchen Sie auch eine Vielzahl an passendem Zubehör wie Profile und Klebstoffe finden!

Problemlose Verarbeitung

SIBU Designplatten sind leicht und ohne viel Aufwand zu verarbeiten. Für den Zuschnitt vor Ort genügt sogar ein einfaches Teppichmesser.

Das Lieferprogramm umfasst Designplatten in nicht klebender und stark klebender Ausführung. Die stark klebenden Platten werden auf den Untergrund mittels einer Gummiwalze fest angedrückt und ohne Gegenzug verklebt.

SIBU DESIGN Plattenformate reichen von 980 x 980 mm über 2600 x 1000 mm bis hin zu 2440 x 1220 mm. Die Plattenstärken gehen von 1 bis 4 mm.

Falls Sie unsere Platten zur PVA-Verklebung verwenden möchten, ersuchen wir Sie, dies bei der Bestellung bekannt zu geben, damit diese entsprechend vorbehandelt werden.

Unser Verkaufsteam informiert Sie gerne!

Die Bearbeitung der Platten auf Holzbearbeitungsmaschinen ist genauso problemlos wie bohren, stanzen, sägen und fräsen!

GB

SIBU DESIGN – The strongly adhesive sheets for exclusive interior design surfaces!

SIBU DESIGN leads the way with regard to top quality polystyrene design panels and the company product programme contains a diversity of fashionable colour and design variations. SIBU DESIGN products have been specially developed for applications such as

- interior
- shop concept
- fashion
- display
- exhibition
- manufacturing

The sheets are easy to use and offer almost unlimited possibilities for application. We can offer you a wealth of additional information, so simply request our sales material, which also contains details about an extensive range of accessories such as profiles and adhesives.

Problem-free working

SIBU sheets are light and uncomplicated to use. A carpet knife is all that is required for cutting on the spot.

The product programme contains sheets in both non-adhesive and extremely strong adhesive versions. The latter are pressed firmly onto the substrate by means of a rubber roller without need for counter-balancing.

SIBU DESIGN sheets come in 980x980mm, 2600x1000mm and 2440x1220mm versions. Sheet thicknesses vary from 1-4mm.

If you would like to use our sheets for PVA bonding purposes, please tell us in your order, so the plates can be pre-treated accordingly.

Our sales team will be pleased to inform you!

The sheets can be easily cut on wood processing machinery, drilled, punched, sawn and milled!

F**SIBU DESIGN – Plaques décor fortement collantes pour l'habillage des surfaces dans l'agencement d'intérieur!**

SIBU DESIGN est le leader incontesté pour la réalisation de plaques décor de haute qualité en matière plastique. La gamme SIBU est riche de nombreux décors, coloris et variantes adaptées à la tendance actuelle. Les produits SIBU sont particulièrement adaptés au monde de l'intérieur comme

- interior
- display
- shop concept
- exhibition
- fashion
- manufacturing

Ils sont faciles à mettre en oeuvre dans presque toutes les situations du décor intérieur. Légers et incassables, ils sont presque sans limite d'utilisation. Profitez des nombreuses possibilités offertes par les produits SIBU et demandez nos catalogues dans lesquels sont aussi présentés d'intéressants accessoires comme les profilés et les adhésifs.

Application sans problème

Les plaques SIBU sont faciles à poser, sans outils spéciaux. Pour la coupe sur le chantier, un simple « cutter » du commerce suffit.

La gamme comprend des plaques non adhésives et fortement collantes. Les plaques collantes s'appliquent avec un rouleau caoutchouc sur le fond porteur. Pas besoin de contre-balancement !

Les formats vont de 980x980 à 2600x1000 mm, et aussi 2440x1220 mm. Les plaques se déclinent en épaisseurs de 1 à 4 mm.

Si vous désirez utiliser nos plaques pour des collages PVA, nous vous prions de nous en informer lors de la commande afin qu'elles puissent être traitées préalablement.

Pour toute information, n'hésitez pas à prendre contact avec notre équipe de vente!

Transformation des plaques par des machines de menuiserie bois traditionnelles : pas de problème pour couper, scier, percer, emboutir ou fraiser!

RUS**SIBU DESIGN – самоклеющиеся декоративные панели для эксклюзивной отделки поверхностей внутри помещений.**

SIBU Design – ведущий производитель высококачественных дизайнерских панелей из синтетических материалов. Программа SIBU представляет собой широкую палитру модных вариантов цветов и дизайнов. Продукция SIBU DESIGN разработана специально для использования внутри помещений для оформления

- интерьера
- торговых дисплеев
- оформления магазинов
- выставочных стендов
- моды
- промышленных изделий

Панели легко обрабатывать и почти без ограничений можно применять для отделки поверхностей. Воспользуйтесь разнообразными возможностями и запросите дальнейшие рекламные и информационные материалы, в которых Вы найдёте множество сопутствующей продукции такой, как профили и клеевые материалы !

Беспроблемная обработка

Дизайнерские панели SIBU обрабатываются легко и без усилий. Для раскроя на месте достаточно простого ножа для напольных покрытий.

Производственная программа включает в себя дизайнерские панели, как самоклеющиеся, так и без клеевого слоя.

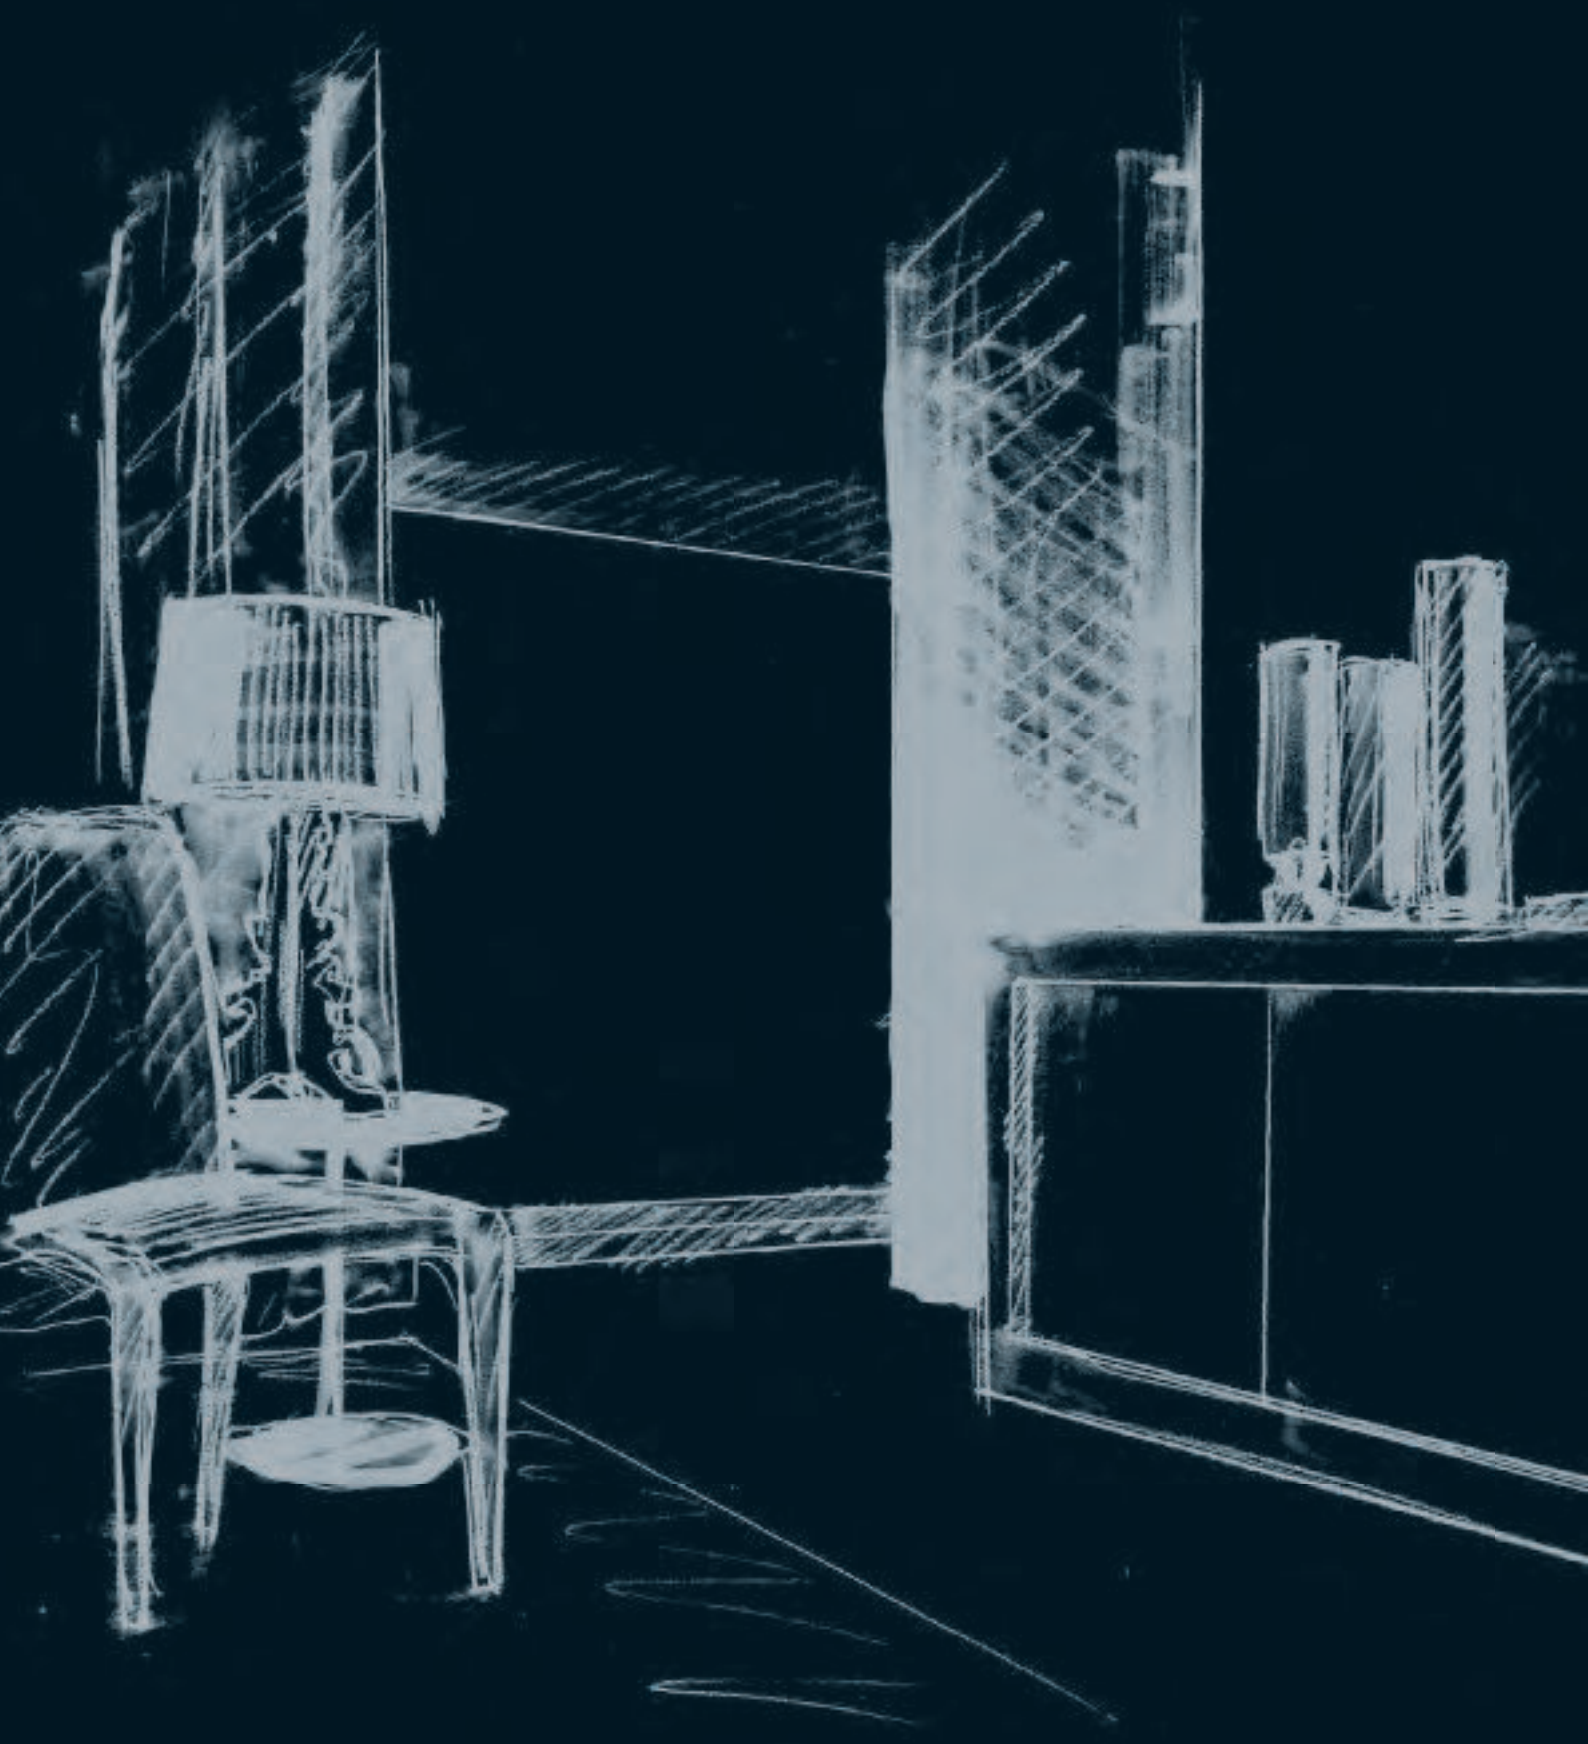

Сильно схватывающие самоклеющиеся панели с усилием прижимают резиновым валиком к оклеиваемой поверхности, наклеивание происходит без стабилизирующего слоя.

SIBU DESIGN предлагает панели размерами от 980x980 мм, до 2600x1000 мм и до 2440x1220 мм. Толщина панелей от 1 мм до 4 мм.

Если вы хотите запрессовывать панели SIBU клеями ПВА, просим сообщить об этом при размещении заказа. В этом случае панели будут обработаны специальным образом.

Наш отдел сбыта с удовольствием предоставит Вам информацию!

Также просто осуществляются сверление, высечка, распил или фрезерование!
